

AdvantageSling

Advantage slings have been engineered to withstand the harshest cleaning and disinfecting requirements in the industry. Simple application and patient positioning make the MedCo Technology Advantage slings some of the most user-friendly and highly functional slings available.

Advantage Fabric

- Gentle against the patient's skin
- Allows for maximum airflow and breathability
- Engineered to wick and pull excess moisture away from the patient's skin
- Extremely durable and cost effective construction
- Designed to be left under the patient
